## Request and Consent for the Copper Intrauterine Device (IUD)

<u>Voluntary Participation and Confidentiality Statement:</u> Title X services are provided solely on a voluntary basis. Individuals must not be subjected to coercion to receive services or to use or not to use any particular method of family planning. Acceptance of family planning services must not be a prerequisite to eligibility for, or receipt of, any other service or assistance from or participation in any other programs of the applicant. This information is confidential and will be treated as such.

Birth control methods may have good or bad side effects or complications, which may be harmful to me. I have been told that the most frequent benefits, risks and side effects are those listed below. Others not listed may occur.

## **Copper IUD Use Effectiveness: 99.4–99.6 Percent**

## **Possible Side Effects Benefits** Possible Risks/Disadvantages 1. Highly effective 1. Increased menstrual bleeding 1. Infection occurs rarely within the first few days after insertion. 2. Contraception lasts for 10 years 2. Increased menstrual cramping 2. IUD may go through the uterus. This is called 3. Gives freedom for greater sexual perforation. spontaneity 3. The IUD may come out by itself. Use of a backup 4. Easily reversible birth control method would be required for 5. Convenient expulsion. 6. Does not change the composition 4. Missing IUD threads/strings—your provider can of breast milk or the volume usually remove an IUD with missing threads in 7. Reduce risk of ectopic pregnancy the office. Rarely, you will need minor surgery to 8. Cost effective remove an IUD with missing threads. 5. No protection from sexually transmitted diseases including HIV 6. Allergy to copper Contraceptive Technology 21st ed. 2018

- 1. I do not wish to become pregnant now. One benefit of choosing a method of birth control is that I will be better able to delay a pregnancy until it is desired.
- 2. The contraceptives that I am interested in have been explained to me and I have been given the opportunity to ask questions about the different methods. I may change to another method or stop using a birth control method at any time I wish, for any reason, including to become pregnant or if medically recommended. I have been advised to call the clinic for discontinuation of the IUD method. Instructions for the use of my chosen method have been given to me.

DHHS 4103 (Revised 5/22/2023)
Reproductive Health Branch (Review 5/2026)

- 3. I understand that to continue the use of the copper IUD, I must come to the clinic for my yearly checkup. It is my responsibility to schedule my yearly checkup. I also understand it is my responsibility to check for the IUD strings monthly and call my health care provider if I am unable to locate the strings.
- 4. I understand that if any of the following danger signs occur severe abdominal pain, unexplained fever or fever after insertion, pelvic pain or pain during sex, unusual vaginal discharge, genital sores, cannot feel the IUD strings, have severe or prolonged vaginal bleeding or if partner has a sexually transmitted disease, I know to seek medical attention immediately.
- 5. <u>I have read the above (or have had it read to me</u>) and have been given the opportunity to ask questions and received answers to my satisfaction. Being mentally competent, I assume full responsibility and release the local health department, including the attending clinician, staff and assistants of any and all liability for any adverse effects or pregnancy that may result from my using the method of birth control provided to me. I have been advised to call the clinic for discontinuation instructions if I choose to stop this method.
- 6. I have been provided information about an emergency number to call after clinic hours or when the agency is closed.

7. I have requested and received information on the copper IUD as a method of birth control, and have chosen to use this
