MATERNAL HEALTH RISK GUIDE

Instructions

Purpose: To assess and document past and present risk factors.

Instructions: Instruct staff to complete part A, B, C and D; simultaneously checking off any of the preexisting conditions on the first section of this form.

If this form will be used, check off the “yes” box on the first line of the Problem List under the initial flow sheet stating:

Using Risk Guide Yes No (if yes see “Risk Guide” form on previous page)

As the pregnancy evolves, when problem(s) arise, the second part of this form should be used, along with the problem list on the initial flow sheet. Place the date on the corresponding problems; use the blank lines to write in conditions or problems not found on this form.

Disposition: This form is to be retained in accordance with the records disposition schedule of medical records as issued by the Division of Archives and History.

Location: Go to the following link to access this form and print as needed:
